Addressing Essential Needs Grants Criteria

About Community Foundation Ireland

Community Foundation Ireland and its partners believe in equality for all in thriving communities. We work with individuals, families, corporates and other trusts and foundations, as well as Government, to translate giving in the moment to giving that is strategic, sustainable and impactful. We use our skills and knowledge developed over 25 years to help donors turn aspirations into effective investments.

The Foundation works with partners to achieve solutions for both long-standing and emerging challenges. The work is built upon four pillars: Empowering Generations, Sustainable Futures, Inclusive Communities and Accelerating Change.

Through our many partnerships we are working towards an Ireland where barriers are broken down and communities are empowered to thrive. Working with you, other non-profits and donors, we are committed to making this vision a reality.

About the RTÉ Toy Show Appeal

The RTÉ Toy Show Appeal was established in 2020 to raise funds for Irish children's charities through the televised Late Late Toy Show. Since then, more than €26 million has been raised to support these charities.

The RTÉ Toy Show Appeal mission is: *Inspired by children, we work to bring the magic of the Late Late Toy Show to every child in Ireland. By funding essential support, health, wellbeing, play and creativity we aim to change children's lives for good.*

Last year €3.8 million was raised and distributed in 127 grants to support more than 1.1 million children and their family members all across Ireland. Thanks to the continued generosity of the Irish public, this year the Appeal raised over €4,900,000 which will be distributed through the RTÉ Toy Show Appeal Grant Rounds in the Republic of Ireland and Northern Ireland. Each grant round will centre around three themes:

- Addressing Essential Needs
- Improving Wellbeing
- Creativity and Play

The RTÉ Toy Show Appeal grant round will open on Monday 17th February 2025. Charities supporting children and families can apply for funding until 4pm on Friday 14th March 2025. Applicants should ensure that their organisation's governance information is up to date *before* submitting their application. More information is available below on the governance information required.

Addressing Essential Needs Strand

Introduction

All children and young people should thrive in their environment, no matter their circumstances. The Addressing Essential Needs Strand will ensure that children and young people have access to the essential items they need, and high quality social and educational supports to help them thrive.

Applications in this strand should focus on supporting the children and young people who are most marginalised in Irish society, including:

- Children and young people at risk of poverty and facing consistent poverty.
- Children and young people facing discrimination.
- Children and young people with disabilities, life-limiting conditions and additional needs.
- Children and young people facing and/or recovering from trauma, abuse or exploitation.

Aims

There are three main aims of the Addressing Essential Needs Strand. Applicants applying to this strand should choose one of the six objectives below that their project or programme will meet:

- **Tackling Poverty**
 - Increase the number of children who have their basic human needs met, therefore reducing the impact of poverty.
OR
 - Increase the number of children receiving high quality preventative wrap around supports, empowering these children and their families.
OR
 - Break the cycles of poverty by increasing the number of children accessing and remaining in education and supporting best practice models of alternative forms of education which provide the best possible opportunity for children to learn.
- **Ensuring Safety**
 - Support the recovery of children and young people who have experienced unsafe environments or situations.
OR
 - Protect and empower children and young people to be safe online by providing high quality supports to children and young people in danger or at risk.
- **Enjoying the Environment**
 - Ensure that all of Ireland's children and young people have access to nature and green, vibrant, healthy spaces by providing programmes that bring children and young people in the natural environment.

Additional Notes

- Projects may be to continue/scale up a current programme, or to start a new one.
- Proposals to this fund can include the proportion of staff salaries specifically related to the project. This also includes new staff salaries required to increase service provision.
- Applications can include equipment or furniture that is relevant to the project or programme.
- The small-scale development of buildings or outside spaces is eligible, but large-scale development, constructing a new building, or buying a building or land is not eligible.
- Charities are encouraged to collaborate with other organisations as part of their work. There will be one lead applicant for this application who must be eligible, but this charity may collaborate with organisations who are not eligible or who may also put in their own application.

Priorities for this Strand

The RTÉ Toy Show Appeal We anticipate that this will be a very competitive grant round so proposals that meet most or all the priorities below will be prioritised for funding:

- Projects that have a strongly justified need based on research or formal feedback. This should be referenced in the application.
- Projects or programmes that are centred around principles of prevention and early intervention.
- Proposals that have strongly articulated the impact of the project on the direct beneficiaries *and* wider community.
- Projects that have the potential to be sustained beyond the life of this grant.
- Projects that will include the voice and feedback of beneficiaries in its development.

For charities who are applying to the **Impact Grants Round** (see further information on the Community vs Impact Rounds below), there are additional priorities:

- Projects that show innovation.
- Proposals that have strongly articulated the impact of the project on the organisation itself and the potential systemic change as a result of the project.
- Proposals that include evaluation as a part of the project and budget.
- Proposals that outline factors that ensure the success of the project.
