About the Guinness Dublin 8 Community Fund

The Guinness Dublin 8 Community Fund aims to support charities, non-profits and local community and voluntary groups based in Dublin 8 that improve the lives of local Dublin 8 communities. The Fund will make grants directly to local Dublin 8 organisations which demonstrate a strong impact and benefit to the local communities of Dublin 8.

After a period of consultation with the local Dublin 8 community, this fund seeks to respond to the needs of the local community by supporting projects which meet one or more of the below three objectives:

1. Enhance educational opportunities and outcomes for the local communities of Dublin 8.

This fund seeks to support projects which empower and equip people who may be at risk of limited educational attainment. Projects which enable and support local people to access education, skills, mentorship, internships or other pathways that allow for greater access to better educational opportunities and outcomes.

2. Foster community development in Dublin 8.

Projects which enhance community cohesion, inclusion, diversity and connection will also be supported. Community development projects may also be those which empower community leaders, build skills and support people to make the changes they want to see. The fund seeks to support initiatives which bring together a wide range of members of the local community together to grow a sense of place, trust, shared experience and relationship building.

3. Address themes of sustainability & climate in Dublin 8.

The fund also seeks to support projects which support the long-term sustainability of the community through projects which tackle themes of climate education, action, awareness, biodiversity, circular economy, food wastage or insecurity.
